PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in Artificial Intelligence and Machine Learning, with hands-on exposure to Full-Stack Development, AI/ML, frontend and backend technologies, Git/GitHub, and automation. Building practical projects across web development and AI-based applications while developing strong programming and software engineering fundamentals. Seeking opportunities to contribute as a Full-Stack / AI-ML Engineer Intern or Software Engineer.

TECHNICAL SKILLS

Programming	Python, JavaScript, TypeScript, Java, C, SQL
Web Development	HTML, CSS, React.js, Frontend, Backend
AI/ML	Artificial Intelligence, Machine Learning
Tools & Technologies	Git, GitHub, GitHub Actions, Bash / Shell Scripting
Development	Full-Stack Development, REST APIs, Database Development

PROJECTS

Smart Crop Advisory System | AI/ML • Full-Stack Development

- Developed a project focused on providing technology-driven advisory support for agricultural use cases.
- Worked across application development and AI/ML-related components.

MatchMind AI | AI • Full-Stack Development

- Developed an AI-powered sports event scheduling and management platform.
- Worked on frontend and backend components for the application.
- Integrated AI functionality into the application workflow.

Snap Study | Full-Stack / AI Project

- Developed an application focused on improving the study and learning experience.
- Worked with modern web development technologies.

FullstackToDoApp | Full-Stack Development

- Built a full-stack task management application.
- Implemented frontend and backend functionality as part of the application.

EDUCATION

Bachelor of Engineering – Computer Science Engineering (Artificial Intelligence & Machine Learning)

Moodlakatte Institute of Technology, Kundapura | 2024 – 2028
